17 years 12,500 students from 72 different countries representing 1,000+ universities

5 delegations:
- Medicine & Science
- Business & Entrepreneurship
- International Relations & Diplomacy
- Engineering & Technology
- Nursing & Healthcare
Who is Envision?

Envision provides summer academic programs in numerous categories: STEM, medicine, law, government and leadership, technology, business administration, entrepreneurship, media arts, and engineering. Envision’s programs are developed by educators and subject-matter professionals and are accredited by the International Association for Continuing Education and Training (IACET) and the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI). More information about Envision can be found at EnvisionExperience.com

Who is International Scholar Laureate?

International Scholar Laureate, founded in 2001 and powered by Envision, offers a unique combination of experiential learning with a dynamic environment, while traveling overseas. Scholars can obtain the skills and resources they need to succeed in the modern, ever-evolving world and reach their full leadership potential. It is open to high-achieving university students from across the United States.

What is the International Scholar Laureate Program?

The International Scholar Laureate Program (ISLP) offers pre-professional educational opportunities, where students choose from five delegations of study outlined in the table below.

<table>
<thead>
<tr>
<th>Delegation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Business &amp; Entrepreneurship</td>
<td>Offered in Australia &amp; China, through gaining special access to the business centers and boardrooms where entrepreneurs are developing the business models of the future, students are exposed to first-hand insight into the entrepreneurial business climate.</td>
</tr>
<tr>
<td>International Relations &amp; Diplomacy</td>
<td>Offered in China &amp; South Africa, through shaking hands with the foreign officials, ministries, and experts who are shaping the future of diplomacy, students will return with a broader perspective on global relations and an international insight that will distinguish them from their peers.</td>
</tr>
<tr>
<td>Engineering &amp; Technology</td>
<td>Offered in China &amp; New Zealand, through visiting the sites and cities where engineers are developing, improving, and testing the ideas and approaches that will impact the future of engineering, students will return with first-hand knowledge that they can then use to implement in their communities in the U.S.</td>
</tr>
<tr>
<td>Medicine &amp; Science</td>
<td>Offered in Australia &amp; China, through learning directly from the doctors and specialists whose ideas impact the future of medicine every day, students will return with knowledge of how medicine is practiced in different parts of the world and can then use that to make their own impact one day.</td>
</tr>
<tr>
<td>Nursing &amp; Health Care</td>
<td>Offered in Australia &amp; South Africa, through experiencing hospitals and clinics beyond their own borders, students will walk away gaining a cross-cultural insight on the delivery of health care.</td>
</tr>
</tbody>
</table>

Why should I or my child attend this program?

It is no secret that the world is changing. Due to rapid advancements in technology and automation, the jobs of yesterday are no longer the jobs of today, and the jobs of today are unlikely to be the jobs of tomorrow.

We are already seeing the educational impact of this technological shift. While diplomas and degrees served their holders so well in the past, more and more they are being seen as insufficient by many employers. More than ever, it is essential that students gain tangible skills that set them apart from their peers; the kind of life-ready skills and in-demand cross-cultural skills that can’t be automated.

Founded on a 21st-century curriculum and learning techniques, ISLP helps to bridge the gap between what students need and what they currently receive. The program provides students with the opportunity to engage in a career-focused study detailing the history and global impact of their field while broadening their horizons in a foreign culture.

“Learning the difference in cultures will be a significant help in my business career and will also help me develop relationships with people in different countries.”
- Meagan D, ISLP Alumna

“Submerging in the culture overall had a huge impact on me. Experiencing things first hand is much better than just hearing about it in a classroom.”
- Cheyenne U, ISLP Alumna

How much does it cost to attend ISLP?

A number of factors determine the pricing of our programs, including location, length of program, and complexity of curriculum. For ISLP, tuition is $3,495. We have payment plans available starting at $409 per month. More information on the cost of attending the program can be found at http://scholarlaureate.org/
